

Small Cnc Lathe Machine Ck0640 Flat Bed Lathes Gang Type Tool Holder Hydraulic

Our Product Introduction

for more products please visit us on luyoungcncmachines.com

Basic Information

- Place of Origin: China
- Brand Name: Luyoung
- Certification: CE
- Model Number: CK0640
- Minimum Order Quantity: 1
- Price: USD4800-USD6000
- Packaging Details: Fumigation-free plywood
- Delivery Time: 45 working days
- Payment Terms: L/C, T/T
- Supply Ability: 100sets

Product Specification

- Max.swing Over Bed: $\Phi 300$
- Max.swing Over Cross Slide: $\Phi 130$
- Max.work Piece Length: 240
- Spindle Speed : 50-2500
- Spindle Bore: 42mm
- X-axis Fast Feeding Speed: 6m/min
- Z--axis Fast Feeding Speed: 8m/min
- X-axis Travel Stroke(mm): 200mm
- Type: Hydraulic Chuck
- Highlight: small cnc lathe machine, cnc lathe small, ck0640 flat bed lathe

Product Description

Small model ck0640 cnc lathe machine flat bed lathes gang type tool holder hydraulic chuck

CK0640			
Item	Parameter	Unit	CK0640 CNC LATHE
Capacity	Max.swing over bed	mm	Φ300
	Max.swing over cross slide	mm	Φ130

	Max.work piece length	mm	240
Spindle	spindle speed	rpm	50-2500
	Spindle taper	mm	42
Fast feeding speed	X-axis Fast feeding speed	m/min	6
	Z--axis Fast feeding speed	m/min	8
Axis stroke	X-axis travel stroke(mm)	mm	200
	Z--axis travel stroke(mm)	mm	/
Power	Main motor power	KW	3
Clamping	Type	/	Pneumatic collect
Thread machining scope	Metric system(mm)	mm	0.25~12
	British system		28~3 1/2
Tail stock	Tail stock sleeve dia.	mm	/
	Tail stock sleeve travel	mm	/
	Tail stock sleeve taper		/
Dimension	length× width × high	mm	1550×920×1450
Weight	Net weight	KG	850
Standard configuration		Option configuration	
GSK928TD-L		Siemens, Fanuc cnc controller	
Pneumatic spring collect (2pcs free)		Pneumatic chuck,Hydraulic chuck	
Gang type tool carrier		4 station electrical tool holder	
Auto lubrication system		Auto feeder system	
Lighting system		Tail stock	
cooling system			
380V 3 phase if your local have special request pls let us know			

The CK0640 lathe is a common CNC lathe, characterized by:

High Precision: Employing precision ball screws and linear guides to ensure high accuracy and stability.

High Automation: Equipped with advanced CNC systems, it can automatically execute complex machining programs, enhancing productivity.

Large Torque: It typically features a high-torque motor, capable of handling heavy cutting and high-speed machining tasks.

Versatility: It can perform various cutting operations, including cylindrical surfaces, end faces, threads, and tapers.

User-friendly Design: The ergonomic control interface facilitates programming and operation, with robust safety protection features.

Structural Rigidity: The cast-iron bed provides excellent rigidity and vibration resistance, maintaining accuracy during heavy-duty machining.

Cooling System: It includes a cooling system to minimize tool wear, prolong tool life, and improve machining surface quality.

Extensibility: It can be optionally equipped with various attachments, like power heads or tool holders, to cater to diverse machining requirements.
