

# Horizontal Cnc Lathe Machine CK6136 750mm 1000mm CNC Turning

### **Basic Information**

Place of Origin: China
Brand Name: Luyoung
Certification: CE
Model Number: ck6136
Minimum Order Quantity: 1

• Price: \$6900-12000

Packaging Details: Fumigation-free plywood

Delivery Time: 45 working daysPayment Terms: T/T, Western Union

Supply Ability: 100sets

## **Product Specification**

Max. Swing Dia. Over Bed: 360mm
Max. Swing Dia. Over 190mm Cross Slide:

• Processing Length: 750mm/1000mm

Width Of The Bed: 300mmDia. Of Spindle: 60mmSpindle Taper: 1:20/90

• Spindle Nose: Type Of Spindle Head D-8

Spindle Speed: 15-1500rpm
Chuck Size: 6/8/10
Tool Holder: 4
Tool Bar Section: 25x25mm

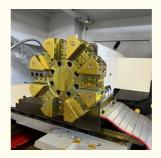

Main Motor Power: 7.5KW
X/Z Axis Position Accuracy: 0.02/0.025mm
X/Z Axis Repeatability: 0.01/0.012mm

# **Product Description**

Cnc lathe machine horizontal CK6136 750/1000 flat bed lathes

A flat-bed CNC lathe is a common type of CNC machine tool, characterized by the following features:

**Stable Structure:** The horizontal bed design of the flat-bed lathe provides excellent rigidity and stability, suitable for heavy cutting and precision machining.

**High Accuracy:** With high flatness and straightness of the bed, this type of CNC lathe can achieve high machining accuracy and surface finish.

High Automation: The machine is controlled by a CNC system, automatically executing complex machining programs, saving labor, and increasing production efficiency.

**Powerful Spindle:** It typically comes with a high-power spindle capable of handling various hardness materials and supporting high-speed cutting.

**Multi-Function Tooling:** Equipped with multi-position tool holders, it can perform various cutting operations, such as external and internal turning, face machining, and threading.

User-Friendly Operation: The CNC system features a graphical user interface, making programming and controlling the machine easy for operators.

**High Expandability:** It can be easily upgraded with additional attachments and functional modules, like automatic loading and unloading systems, to accommodate diverse production requirements.

**Versatility:** Suitable for both batch production and small batch production, especially for machining complex-shaped and high-precision components in industries like automotive, aerospace, precision machinery, and medical devices. These characteristics make flat-bed CNC lathes widely employed in various sectors where precision and versatility are essential.

#### Specifications:

Meddle CNC Lathe Machine CK613	6A
Item	CK6136A
Max. swing dia. over bed	Ф360mm
Max. swing dia. over cross slide	Ф190mm
Max. processing length(mm)	750
Dia. of spindle hole	Ф52mm
Spindle speed	150-2500rpm
spindle taper	MT6
Tool holder	
Tool bar section	20x20
Main motor power	5.5kw
X/Z axis fast feeding speed	6/8 m/min
X/Z axis position accuracy(mm)	0.01/0.015
X/Z-axis repeatability(mm)	0.012/0.013
Clamping	3 Jaw Manual Chuck(optional pnematic or hydraulic chuck)
Tailstock sleeve dia.	60mm
Tailstock sleeve travel	120mm
Tailstock taper	MT4
Dimension	2120x1520x1900
Weight(kg)	1600
Standard configuration:	
GSK980 tb3 CNC Controller	
Servo motor for X,Z axis, Servo driv	en
3 Jaw Manual Chuck	
4 station electric tool post	
Auto lubrication system	
lighting system	
cooling system	

Pls notice the distance between two centers you can choose 750/1000/1500mm

### Company Profile

essing center favorable afte omer, the cus	hinery company has 20 years of production lathe experience, main CNC lathe, CNC milling machine, Swiss CNC lathe high-tech enterprise. The company has a professional production and development tear r-sales technical team support. The company takes the strength to make the product, the service wins the tomer as the basic management concept. Our company has gained a good reputation both at home and
ocessing center d favorable afte stomer, the cus road by providir st-effective CNC ented, is the dir provements, inr	Swiss CNC lathe high-tech enterprise. The company has a professional production and development tear r-sales technical team support. The company takes the strength to make the product, the service wins the tomer as the basic management concept. Our company has gained a good reputation both at home and ag customers with a machine tools and excellent timely sales advice and after-sales service. Development, innovation, people ection my company has been working on. Our company continuously strengthen product performance novation cost-effective CNC machinery, optimize product quality control system, to provide global support

to expand overseas market, we invite customers to visit our factory, also can be customized according to customer demand, through our products and services for customers		
Packing & Delivery		
1	.Non-fumigation packaging, we use seaworthy plywood. . Steel base plate, it is stronger 3-5 times than normal plywood base plate.
