## 3 Axis 4 Axis Horizontal Machining Center HMC 630 Metal Cnc Milling Machine CE

Our Product Introduction

For more products please visit us on [luyoungcncmachines.com](http://luyoungcncmachines.com)

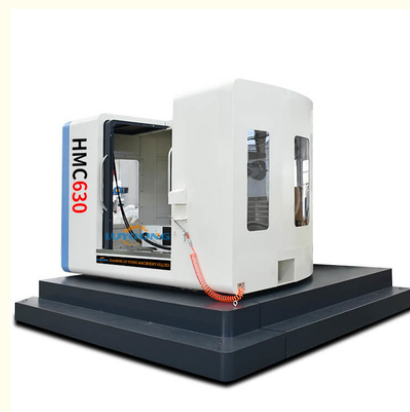

### Basic Information

- Place of Origin: CHINA
- Brand Name: luyoung
- Certification: ISO, CE
- Model Number: HMC500
- Minimum Order Quantity: 1
- Delivery Time: 30 days
- Payment Terms: 30% T/T as deposit, the balance will be paid before shipment.

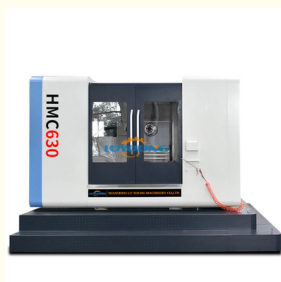

### Product Specification

- Table Loading: 350kn
- Year: 2024
- Color: Customized According To Customer Requirements
- Power Requirement: 380V, 3-phase
- Machine Color: As Your Requirement
- Keyword: Cnc Milling Machine
- Machinery Test Report: Provided
- Vertical Stroke: 1000mm
- Highlight: Horizontal Machining Center HMC-630, 4 axis horizontal machining center, horizontal machining center hmc

## Product Description

China factory price HMC630 3 axis 4 axis metal horizontal cnc milling machine with CE

### Product Description:

With port options including Qingdao, Ningbo, or Shanghai Port, we make it easy for you to receive your CNC Milling Machine no matter your location.

Our CNC Milling Machine is ideal for all your milling needs, with a focus on precision and accuracy. This 24ATC machine ensures that your product will come out exactly as you want it, every time.

Our vertical machine center is the perfect addition to any workshop or manufacturing facility, providing you with the tools you need to create the products your customers demand. The Z motor torque of 7.7N.m ensures that your machine will be able to handle even the toughest materials with ease, providing you with consistent results.

When you purchase our CNC Milling Machine, you can rest assured that you're getting a quality product. We provide a machinery test report with every machine, giving you the peace of mind that comes with knowing your machine has been thoroughly tested and inspected.

Don't settle for anything less than the best when it comes to your milling needs. Invest in our CNC Milling Machine today and experience the precision and accuracy that only a top-quality machine can provide.

### Applications:

The Luyoung HMC500 5 Axis CNC Milling Center is a versatile and powerful machine that can be used in a variety of applications.

Whether you are a manufacturer, job shop, or hobbyist, this machine can help you produce high-quality parts quickly and accurately.

One of the primary applications for the Luyoung HMC500 is in the production of complex parts. With its 5-axis capability, this machine can easily machine parts with intricate geometries and features. This makes it an ideal choice for manufacturers in the aerospace, automotive, and medical industries.

Another common application for the Luyoung HMC500 is in the prototyping and design process. This machine can help designers and engineers quickly create and test new parts and designs. Its high precision and accuracy ensure that the parts produced are of the highest quality.

Job shops and contract manufacturers can also benefit from the Luyoung HMC500. With its fast cycle times and high accuracy, this machine can help these businesses increase their productivity and efficiency. It can also help them expand their capabilities and take on more complex projects.

The Luyoung HMC500 CNC Milling Machine is an ideal choice for a wide range of scenarios. From high-volume production runs to low-volume custom projects, this machine can handle it all. Its ISO and CE certifications ensure that it meets the highest standards of quality and safety.

If you are considering purchasing a CNC milling machine, the Luyoung HMC500 is an excellent choice. With a minimum order quantity of just one and a delivery time of 30 days, you can quickly get started on your next project. Payment terms are also flexible, with 30% T/T as a deposit and the balance due before shipment.

Assembled in China, the Luyoung HMC500 CNC Milling Machine is made with high-quality core components, including a motor, PLC, and gearbox. It requires a power supply of 380V and 3-phase, and its Z motor torque is 7.7N.m. The machine color can be customized to your requirements.

### Customization:

The HMC500 is a vertical machine center that is perfect for various machining applications. Our machine is designed to provide high accuracy and repeatability in every cut. The HMC500 is a 5 axis CNC milling center that can handle complex geometries and contours with ease.

Our machine is thoroughly tested and comes with a machinery test report. We offer delivery options through Qingdao, Ningbo, or Shanghai Port. If you are looking for a reliable and efficient CNC milling machine, the HMC500 is the perfect choice for you.

Order your Luyoung HMC500 CNC Milling Machine today and experience the precision and quality of our machine.

### Support and Services:

Our CNC Milling Machine product comes with exceptional technical support and services to ensure the best performance and longevity of the machine. Our team of experts is always ready to assist with any technical issues and provide timely solutions to minimize downtime.

We offer a comprehensive range of services, including installation, training, maintenance, and repair, to optimize the productivity of the machine and ensure maximum ROI for our customers. Our technicians are highly skilled and experienced in CNC machining, and are equipped with the latest tools and technology to offer efficient and reliable services. In addition, we also provide software updates and upgrades to keep the machine up-to-date with the latest technology trends and ensure compatibility with the latest software applications. Our goal is to provide our customers with the best possible experience and ensure their satisfaction with our product and services.

### Packing and Shipping:

Product Packaging:

The CNC Milling Machine will be securely packed in a wooden crate to prevent any damage during transportation.

All necessary accessories and tools will be included in the package.

The package will be labeled with all the necessary information, including the recipient's address and contact details.

Shipping:

We offer worldwide shipping for the CNC Milling Machine.

The shipping cost will be calculated based on the destination and weight of the package.

Once the order is confirmed, we will provide the estimated delivery time and tracking information.

We work with trusted shipping partners to ensure the safe and timely delivery of our products.

## FAQ:

**Q: What is the brand name of the milling machine?**

A: The brand name of the milling machine is **luyoung** .

**Q: What is the model number of the milling machine?**

A: The model number of the milling machine is **HMC500** .

**Q: Where is the milling machine manufactured?**

A: The milling machine is manufactured in **China** .

**Q: What certifications does the milling machine have?**

A: The milling machine has **ISO** and **CE** certifications.

**Q: What are the payment terms for the milling machine?**

A: The payment terms for the milling machine are **30% T/T as deposit, the balance will be paid before shipment** .

**Q: What is the minimum order quantity for the milling machine?**

A: The minimum order quantity for the milling machine is **1** .

**Q: What is the delivery time for the milling machine?**

A: The delivery time for the milling machine is **30 days** .
