

## 380v 2 Axis CNC Turning Centre Flat Bed GSK Controller Cnc Lathe Ck 6140 For Metal

Our Product Introduction

For more products please visit us on [luyoungcncmachines.com](http://luyoungcncmachines.com)

### Basic Information

- Place of Origin: SHANDONG
- Brand Name: cnc lathe machine
- Certification: CE,ISO
- Model Number: CK640
- Minimum Order Quantity: 1set
- Price: \$6900-\$9000
- Packaging Details: plywood box
- Delivery Time: 30 days
- Payment Terms: L/C, T/T
- Supply Ability: 30/SET

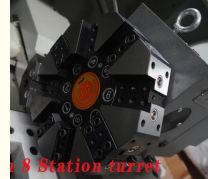

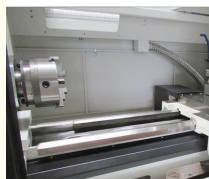

### Product Specification

- Number Of Axes: 2/3/4
- Coolant System: Yes
- Spindle Bore: 52mm
- Precision: High Precision
- Spindle Speed: 150-2500rpm
- Distance Between Centres: 750/1000/1500/2000/3000mm
- Positioning Accuracy: 0.01/0.015
- Spindle Taper: MT6
- Tool Bar Section: 20X20mm/25X25mm
- Main Motor Power: 5.5KW
- Highlight: 380v CNC Turning Centre,  
2 Axis CNC Turning Centre, Cnc Lathe Ck 6140

Our Product Introduction

### Product Description

China factory price GSK controller flat-bed 380v cnc lathe ck 6140 for metal

#### Product Description:

China factory price GSK controller flat-bed 380v cnc lathe ck 6140 for metal mechanical and electrical integration design ,generous appearance beautiful, reasonable structure, easy to operate. Machine tool rails with wear-resistant cast iron,castings high temperature customization, repeated artificial aging treatment, the use of ultra-audio quenching, hardness above HRC50 °C, long-term stability to ensure the accuracy of machine tools, Z-center screw, so that cutting force uniform ,Improve accuracy. High-quality cast iron cast bed foot so that the machine is more stable, more accurate.

#### Features:

- 1.Bed casting.Integrated structure of bed casting, high frequency quenching 5mm, hardness 53-56 degrees, high base strength, strong suitability force cutting.
- 2.Guide rail:And after two artificial aging treatments, the surface of the bed guide rail is quenched, with a hardness of HRC50,good stability and high strength.

3.Spindle:45#steel forged spindle,feature is high speed, high precision, strong rigidity, small thermal deformation, stable operation and low noise.

4. Chuck:Precision self-centering chuck, standard three-jaw manual chuck. Optional 4-jaw hydraulic chuck or pneumatic chuck

5.Tool post:The electric four-station tool post adopts precision gear plate positioning, which has high repeat positioning accuracy

6.Tailstock: The tailstock has a fast cam clamping device, which has high working efficiency. There is a device in the tailstock sleeve to prevent the rotation of the drill bit, which avoids damage to the taper of the inner hole of the tailstock sleeve due to misoperation of the drill bit, and effectively protects the tailstock components.

**Technical Parameters:**

Precision	High Precision
Cnc Or Not	Cnc
Machine Dimension	2/2.3*1.5*1.7
Coolant System	Yes
Spindle Speed Ranges	100~1600r/min
Tailstock Shaft Diameter	95mm
Distance Between Centres	3000mm
Number Of Axes	2/3/4
Style	Flat Bed Type
Spindle Head Type	A2-5

<b>Item</b>	<b>CK6140A</b>
Max. swing dia. over bed	Φ400mm
Max. swing dia. over cross slide	Φ225mm
Processing length	750mm/1000mm
Dia. of spindle	Φ52mm
Spindle taper	MT6
Spindle speed	150-2500rpm
Tool holder	4 station electric tool post(optional 6/8staion electric turret)
Tool bar section	20X20mm/25X25mm
Main motor power	5.5KW
X/Z axis fast feeding speed	6/8 M/MIN
X/Z axis position accuracy(mm)	0.01/0.015
X/Z-axis repeatability(mm)	0.012/0.013
Clamping	3 Jaw Manual Chuck(optional pnematic or hydraulic chuck)
Tailstock sleeve travel	120mm
Tailstock taper	MT4
Dimension	2120/2370*1400*1700mm
Weight(kg)	1800/1950
380V 3 phase(if your local have special request pls let us know)	

**Applications:**

#### Customization:

With our customization services, you can add a bar feeder to your cnc lathe machine, making it more efficient and productive. We also offer customization for a small cnc lathe machine, perfect for small scale manufacturing and workshops. Additionally, we can customize the machine to a cnc horizontal lathe machine, which is ideal for turning long and large diameter workpieces.

#### Support and Services:

1. We supply 24 hours on-line service,you could contact with us by email, phone, wechat, whatsapp,skype etc.
2. Received your phone or mail,we will Analyze the problem immediately.
- 3.Supply professional solution, after analyze the problem, we give you our best solution.
4. The warranty period of the whole machine is 1 year. Under normal use, if the machine parts are damaged during the warranty period, we will provide free accessories. Outside the warranty period, if the parts are damaged, we only charge the cost price of the parts, and will never overcharge.
5. Provide lifetime free technical support, you can contact us at any time if you encounter difficulties in the process of use.
6. We provide overseas services, engineers can go to the customer's factory for debugging,installation, maintenance, and repair. (In case of non-epidemic situation).

#### Packing and Shipping:

- 1.Port: Qingdao port or Shanghai port
- 2.Payment method: T/T, L/C, D/P, D/D etc.
- 3.Payment: 30% T/T as deposit, 70% balance shall be paid before shipment.
- 4.Delivery time: 30 days after receive the 30%T/T deposit.
- 5.Non-fumigation packaging, we use seaworthy plywood.
6. Steel base plate, it is stronger 3-5 times than normal plywood base plate.
- 7.Water-proof and damp proof, water resistant film wrapped all the machine.
- 8.Fully sheathed case,prevention of collision and keep the goods intact.

#### FAQ:

- 1.Does the China factory price GSK controller flat-bed 380v cnc lathe ck 6140 for metal can be customized?

Of course, if our standard configuration can not meet your needs, please tell us that we redesign and produce the machine to meet your needs

- 2.How long is the warranty period of the China factory price GSK controller flat-bed 380v cnc lathe ck 6140 for metal ?

Warranty period is one year, if parts damage within one year, we will send free of charge. Free online training or factory training to ensure that you can use our products properly. We can offer overseas paid installation, commissioning service.

- 3.What time is your work time?

We work online 24 hours a day, offer quotes and technical support at any time.

4.Do you use the Trade Assurance on ?

Yes, all of the order use this.Can guarantee the quality of the product and your payment.

5.How to get a quote?

Please tell us the model you need or send us drawings of the workpiece, then we can recommend the most suitable products to you.

We will give you the best offer within 24 hours.

6.How to contact with you?
