

Horizontal Cnc Metal Band Saw Belt Saw Blade Speed Cutting 3050x34x1.1mm

Our Product Introduction

for more products please visit us on luyoungcncmachines.com

Basic Information

- Place of Origin: Shandong, China
- Price: \$6,000.00/sets 1-1 sets
- Packaging Details:
 - 1.Non-fumigation packaging, we use seaworthy plywood.
 2. Steel base plate, it is stronger 3-5 times than normal plywood base plate.
 - 3.Water-proof and damp proof, water resistant film wrapped all the machine.
 - 4.Fully sheathed case,prevention of c
- Supply Ability: 80 Set/Sets per Month

Product Specification

- Condition: New
- Machine Type: Band Saw Machine, China CE Cnc Band Saw Machine For Metal Cutting
- Video Outgoing-inspection: Provided
- Machinery Test Report: Provided
- Marketing Type: New Product 2020
- Saw Blade Tension Method:Hydraulic
- Warranty Of Core Components: 1 Year
- Core Components: Gearbox, Pressure Vessel, Pump, Gear, Bearing, Engine, Motor, PLC
- Showroom Location: None
- Warranty: 1 Year
- Weight (KG): 800
- Applicable Industries: Manufacturing Plant
- Key Selling Points: Competitive Price

Product Description

Horizontal CNC Metal Band Saw Belt Saw Blade Speed Cutting 3050x34x1.1mm

Product Overview

Professional-grade CNC band saw machine designed for precision metal cutting with a 3050×34×1.1mm belt saw blade. Features automatic operation, hydraulic saw blade tension, and multiple speed options (27, 45, 69m/min).

Key Specifications

Condition: New

Machine Type: CNC Band Saw Machine

Warranty: 1 Year

Weight: 800 KG

Sawing Range: 300mm

Main Motor: 2.2kw

Color: Customizable

Why Choose Our Machine?

Product Selection Services: Our professional team helps select the optimal model based on your workpieces or drawings.

Flexible Configuration: Custom design and production to meet your specific requirements.

Free Training: Comprehensive training available online or at our workshop.

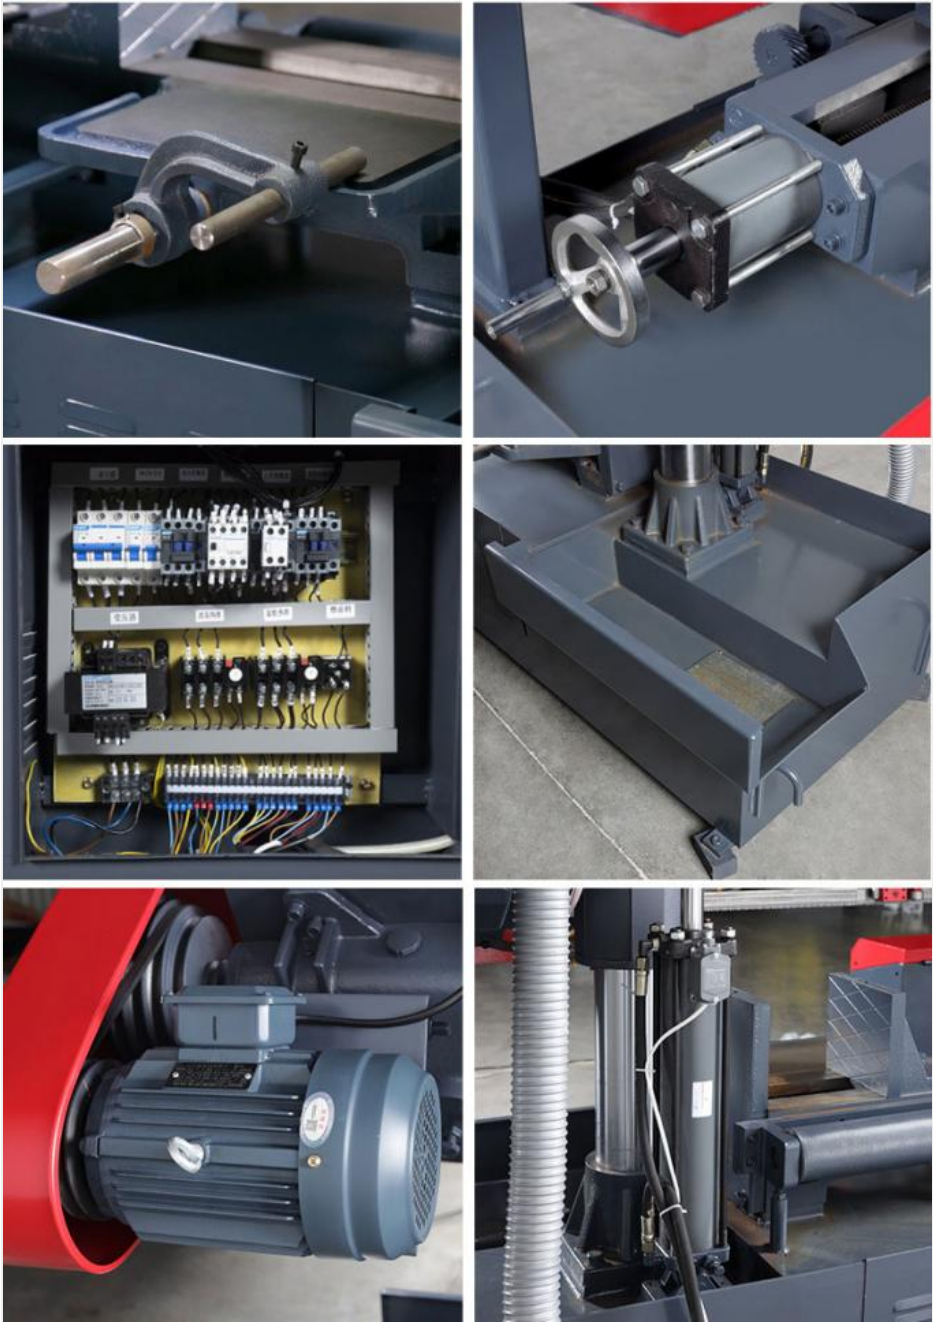

Technical Support: Includes machine brochures, inspection certificates, foundation diagrams, and standard tool documentation.

24/7 Service: Immediate response and feedback handling within 24 hours.

Technical Specifications

Model Name	GB4240	GB4250
Max. Cutting	400×400mm	500×500mm
Saw Blade Size	5000×41×1.3mm	5800×41×1.3mm
Speed	27,45,69m/min	
Motor Output (Blade)	4kw	5.5kw
Machine Weight	1400kg	1600kg

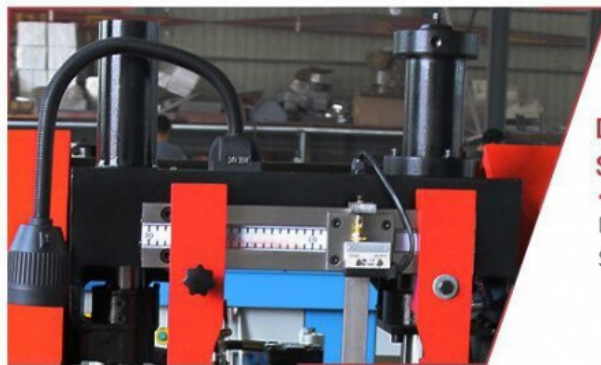

Product Features

- Double column structure with vertical lifting for enhanced stability
- Hydraulic control of cutting speed with stepless speed regulation
- Hydraulic work piece clamping for easy operation
- Custom three-way hydraulic tightening device

Saw blade break induction with automatic emergency shutdown

Compact design with high production efficiency and strong safety features

Machine details

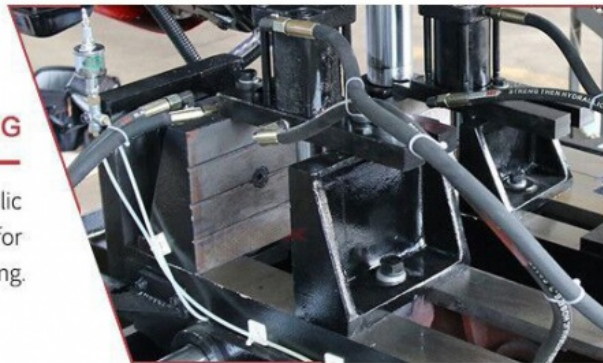

DOUBLE COLUMN STRUCTURE

Double column structure,
Stable cutting .

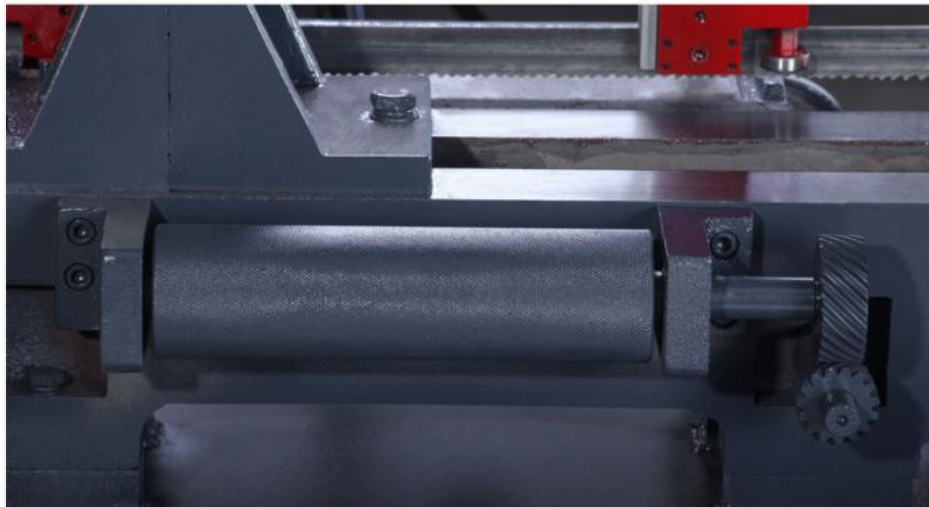

HYDRAULIC CLAMPING

Standard with hydraulic
clamping device for
accurate cutting.

AUTOMATIC FEEDER

Standard with 1 meter length
automatic feeder; Controlled
by PLC ; High efficiency.

After-Sales Service

1-Year Warranty: Free replacement of damaged parts during warranty period

24/7 Technical Support: Available anytime for consultation

Training Options: Free online or factory training

Overseas Service: Paid commissioning and training services available

AFTER SALES SERVICES

Warranty for 12 months

Free training

7×24 hours service

Oversea service

Packaging & Shipping

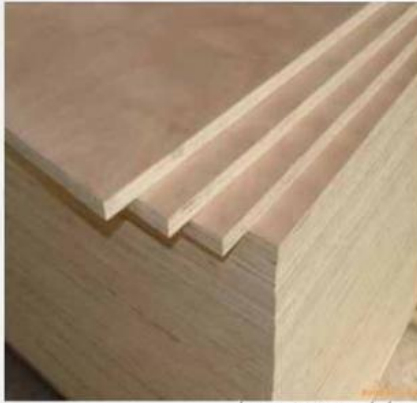

Non-fumigation Packaging: Seaworthy plywood construction

Reinforced Base: Steel base plate 3-5 times stronger than standard

Protective Wrapping: Water-resistant film for moisture protection

Full Protection: Fully sheathed case to prevent collision damage

Non-fumigation packaging

Steel plate, more stronger

lycncmachine.en.alibaba.com

Water-proof and damp proof

Fully sheathed case

Frequently Asked Questions

Can the GT4250 CNC band saw machine be customized?

Yes, we can redesign and produce the machine to meet your specific requirements if our standard configuration doesn't suit your needs.

What is the warranty period?

The warranty period is one year, including free replacement of damaged parts. We also provide free training to ensure proper operation.

How can I get a quote?

Please provide the model you need or send us workpiece drawings, and we will recommend suitable products with a competitive quote within 24 hours.
