

Steel Horizontal Band Saw Machine For Aluminum PLC Control 27m Min

Our Product Introduction

for more products please visit us on luyoungcncmachines.com

Basic Information

- Place of Origin: Shandong, China
- Price: \$4,800.00/sets 1-9 sets

Product Specification

- Condition: New
- Machine Type: Band Saw Machine, High Quality Horizontal Automatic Metal Cutting Band Saw Machine
- Video Outgoing-inspection: Provided
- Machinery Test Report: Provided
- Marketing Type: New Product 2020
- Blade Speed (m/min): 27,45,69m/min
- Saw Blade Tension Method:Hydraulic
- Warranty Of Core Components: 1 Year
- Core Components: Gearbox, Pressure Vessel, Pump, Gear, Bearing, Engine, Motor, PLC
- Showroom Location: None
- Warranty: 1 Year
- Weight (KG): 800
- Applicable Industries: Manufacturing Plant

Product Description

GT4240 Horizontal MetalCutting PLC Control Band Saw Machine Automatic Metal Cutting Band Saw Machine

Our Product Introduction

for more products please visit us on luyoungmachines.com

Product Description

Why choose our machine?

1. **Product selection services**, you can give us your workpieces or drawings, then our Professional team will choose the most suitable model for you.
2. **Flexible configuration**, you tell us your request then we design and produce it.
3. **Free training**, we supply free training online or at our workshop.
4. **Free technical support**, including machine brochures, machine inspection certificate, precision inspection book, machine foundation diagram , standard machine tools .
5. **7×24 hours service**, listen in time and handle your feedback within 24 hours.

Specification of GT4240 Horizontal MetalCutting PLC Control Band Saw Machine Automatic Metal Cutting Band Saw Machine

;

Model Name		GB4240	GB4250
Max.cutting		400-400×400m	500-500×500mm
Saw blade	Size	5000×41×1.3mm	5800×41×1.3mm
	Speed	27,45,69m/min	
	Guides	Carbide and bearing blade guides	
	Cleaning	Power wire brush & flood coolant	
	Tension	Manual	
Motor output	Blade	4kw	5.5kw
	Hydraulic	1.5kw	1.5kw
	Coolant	0.09kw	0.09kw
Work feeding		Manual	
Work Vice		Hydraulic	

Machine size(mm)	2380×1350×1950	2500×1550×2200
Machine Weight(kg)	1400	1600

Product Feature

The GT4240 Horizontal Metal Cutting PLC Control Band Saw Machine Automatic Metal Cutting Band Saw Machine, and the saw wheel drives the saw band to cut. There are two main types of band sawing machines: vertical and horizontal. The saw frame of the vertical band saw machine is set vertically, and the work piece moves during cutting to cut the curve contour of the sheet and the formed part. The saw band can also be replaced with a file chain or sanding belt for filing or sanding. The saw frame of the horizontal band saw machine is arranged horizontally or obliquely, and feeds in the vertical direction or the direction of swinging around a point. The saw band is generally twisted by 40° to keep the saw teeth perpendicular to the work piece. Horizontal type is divided into scissors type, double column, single column type band saw; according to the usage, it is divided into manual type (economical manual feeding and manual cutting of materials) and automatic type; according to the automation program using the controller, it can be divided into manual type (Semi-automatic manual feeding) automatic type (automatic feeding and automatic cutting); according to the cutting angle requirements, it is divided into angle sawing machine (can saw the cutting angle of 90 degrees and 45 degrees) without angle, that is, 90 degrees vertical cutting.

Features of Double Column Horizontal Metal Band Sawing Machine Series Band Sawing Machine:

- ♣Double column structure, vertical lifting, high stability
- ♣Hydraulic control of cutting speed, stepless speed regulation
- ♣Work piece clamping hydraulic clamping, easy to operate
- ♣Customized three-way hydraulic tightening device
- ♣The product has the characteristics of compact structure, stable performance, simple operation, high production efficiency, strong safety, etc.
- ♣Saw blade break induction, automatic emergency shutdown

Machine details

DOUBLE COLUMN STRUCTURE

Double column structure,
Stable cutting .

HYDRAULIC CLAMPING

Standard with hydraulic
clamping device for
accurate cutting.

AUTOMATIC FEEDER

Standard with 1 meter length
automatic feeder; Controlled
by PLC ; High efficiency.

Company Information

20 years' production experience

Our **FACTORY**
BAND SAW

CUSTOMER CUTTING CASE

SAWING STAINLESS STEEL

SAWING H-BEAMS

SAWING 45# ROUND STEEL

SAWING SQUARE PIPE

SAWING CHANNEL STEEL

SAWING ANGLE IRON

After-Sales Service

AFTER SALES SERVICES

Warranty for 12 months

Free training

7×24 hours service

Oversea service

1. **Warranty for one year:** In the warranty period, if there is a damaged parts, we will send it to you for free.
2. **Provide 24 hours of online technical service** you can contact us any time.
3. **Provide free training**, you can choose to train online or come to the factory.
4. **Provide paid overseas services**, including commissioning machines and training

Packaging & Shipping

Strong packing will protect the goods from any possible damage during transit

1. **Non-fumigation packaging**, we use seaworthy plywood.
2. **Steel base plate**, it is stronger 3-5 times than normal plywood base plate.
3. **Water-proof and damp proof**, water resistant film wrapped all the machine.
4. **Fully sheathed case**, prevention of collision and keep the goods intact.

FAQ

1. Does the High quality horizontal automatic metal cutting band saw machine can be customized?

Of course, if our standard configuration can not meet your needs, please tell us that we redesign and produce the machine to meet your needs.

2. How long is the warranty period of the cnc lathe machine?

Warranty period is one year, if parts damage within one year, we will send free of charge. Free online training or factory training to ensure that you can use our products properly. We can offer overseas paid installation, commissioning service.

3. What time is your work time?

We work online 24 hours a day, offer quotes and technical support at any time.

4. Do you use the Trade Assurance on ?

Yes, all of the order use this. Can guarantee the quality of the product and your payment.

5. How to get a quote?

Please tell us the model you need or send us drawings of the workpiece, then we can recommend the most suitable products to you. We will give you the best offer within 24 hours.
