

TCK40 Multifunctional Drilling Milling Lathe Machine for Accuracy Pressure Vessel

Our Product Introduction

for more products please visit us on luyoungcncmachines.com

Basic Information

- Place of Origin: Shandong, China
- Brand Name: Lu Young
- Certification: CE ISO
- Model Number: TCK40
- Price: \$15,000.00/sets >=1 sets

Product Specification

- Type: Horizontal
- Max. Length Of Workpiece (mm): 700 Mm
- Structure: Slant Bed Lathe
- Machining Capacity: Heavy Duty
- Width Of Bed (mm): 400 Mm
- Spindle Motor Power(kW): 5.5
- No. Of Spindles: Single
- Number Of Axes: 4
- Travel (X Axis)(mm): 420 Mm
- Travel (Z Axis)(mm): 800 Mm
- Positioning Accuracy (mm): 0.01 Mm
- Repeatability (X/Y/Z) (mm): 0.003
- Dimension(L*W*H): 2100*1450*1850
- Voltage: 380V

Product Description

TCK40 Multifunctional Drilling and Milling Lathe Machine for Accuracy Pressure Vessel
TCK40 Multifunctional Drilling and Milling Lathe Machine High-Accuracy Pressure Vessel for Retail and Manufacturing Industries

Product Description

Feature:

- ◆ Max. swing over bed: 650mm
- ◆ Max cutting Diameter: 540mm
- ◆ Clamping: 10" Hydraulic Chuck
- ◆ Distance between two centers: 700mm
- ◆ Power of main motor: 7.5KW
- ◆ Turret: 12 station living turret

Optional parts:

- ◆ 10/12 station hydraulic turret
- ◆ 12 station living turret Or living tools
- ◆ Hydraulic tailstock
- ◆ GSK or Fanuc controller system

Optional configuration

8station living turret

12station hydraulic turret

12station living turret

3+3 living tool

4+4 living tools

Specification of TCK40 Multifunctional Drilling and Milling Lathe Machine High-Accuracy Pressure Vessel for Retail and Manufacturing Industries:

Specification		Unit	TCK56
Work Capability	Max swing over bed Dia.	mm	Φ640
	Max swing over the cross slide Dia.	mm	Φ280
	Max cutting length	mm	540
	Max turning diameter	mm	Φ540
Spindle	Hydraulic chuck size	mm	10"
	Spindle nose	/	A2-6
	Spindle taper/diameter	mm	Φ 66
	Spindle speed	r/min	20-3500
	Main motor power	kW	11
Tail stock	Tail stock sleeve dia./travel	mm	480
	Sleeve taper	MT No.	MT-5
Body	Bed angle	DEG	45 °
	Travel range for X/Z	mm	280/700
	Fast feeding speed X/Z	m/min	24/24
	Servo motor torque X/Z	Nm	15/15
	Servo motor power	kw	2./2.3
Turret	Nos.	/	12
	Tools size	mm	25×25/Φ32
	Y axis travel range	mm	+ _50
	Dimension size	cm	3400X2060x2100
	Weight	kg	4200

Function of living turret:

What's the advantage of high precision Lathe Machine drilling and milling multifunctional lathe for sale TCK40 machines?

- ♠ Spindle: The spindle is of high rigidity and high speed structure, which can realize stepless speed change and constant linear speed cutting and high speed cutting;
- ♠ Turret: Equipped with a high-performance hydraulic tool post, with good rigidity, accurate tool change and fast speed, and high reliability, which can improve the processing efficiency of the machine tool;
- ♠ Chuck: The standard type is equipped with a hydraulic chuck with high efficiency and stable accuracy. The sleeve chuck can also be installed according to the user's requirements, which is convenient to clamp the workpiece and reliable in work;
- ♠ Controller system: CNC system Siemens 808D controller system; optional new generation, GSK, FANUC
- ♠ Linear guide way: Using Taiwan Hiwin linear guide, the machine tool bears a large load, has a good dynamic response, eliminates low-speed crawling, and has good accuracy.
- ♠ Casting: The use of a high-rigidity horizontal cast iron bed, combined with a 45-degree Z-direction sliding table, and an optimized design of a large triangular headstock, greatly improve the rigidity of the spindle.

Application

TCK40 Multifunctional Drilling and Milling Lathe Machine High-Accuracy Pressure Vessel for Retail and Manufacturing Industries

,It is suitable for rough and finishing machining of shafts, discs, sleeves and other mass production parts in industries such as automobiles, motorcycles, and compressors. It is especially suitable for heavy cutting and interrupted cutting. It can automatically complete the processing of various curved surfaces and threads such as cylinders, cones, arcs, etc., with complete functions and high cost performance.

Spindle

Φ82 Spindle
hole diameter.

Turret

8 station Hy-
draulic turret.

Chuck

305mm hydrau-
lic hollow type
chuck.

control system

Could choose Siemens, Fanuc, GSK etc.

Guide way

Taiwan Hiwin linear guide way

Casting

one-piece casting

flange plate

plunger

hub bearing

bearing

gearing shaft

Curved cutting edge

cutted thread screwing

cutterhead

milling cutter arbor

Company Information

Company Information

Shandong Lu Young Machinery Co., Ltd. is established in July 1996. We are located in Shandong Province. We are one of professional CNC lathe machine, CNC milling machine and Swiss lathe machine manufacturer in China. We founded our first lathe machine factory in 1996 in Tengzhou City to produce center lathe and universal milling machine for over 20 years development, we build three factories. One is for CNC lathe production, one for CNC milling production.

We imported advanced production technology and R&D team from Korea in 2001 and build our third factory for Swiss lathe machine production.

We own about 500 workers and 40 engineers, more than 5000 square meters. Our engineer team has rich experiences for equipment selection and process design,

we can give you professional solution based on your workpieces fast and freely. We could produce over 1000 sets of CNC machine equipment one year. Our CNC machine tools have been exported over 40 countries and get good feedback.

♥ More than 20 years of production experience.

♥ Exported more than 40 countries.

♥ More than 300 staffs in factory.

♥ CE and ISO9001 certification.

♥ 7x24 hours online service.

Who choose us?

The products have exported more than 40 countries around the world, please look who choose us:

Everything looks well, now we didn't find any problem.

After-Sales Service

slant bed CNC Lathe Machine TCK550 metal cnc milling lathe machine Guarantee:

1. One year warranty for the whole machine. Within one year under normal use and maintenance, if some accessories are damaged you could get the new accessories for free. Out of one year, you will get spare parts at cost price. You will also get free technical support and service all the lifetime.

Technical support:

1. Technical support by phone, email or WhatsApp/Skype around the clock
2. Friendly English version manual
3. Engineer available to service machinery overseas

Packaging & Shipping

Strong packing will protect the goods from any possible damage during transit

TCK550 China Fanuc, GSK, Siemens Control System high precision automatic slant bed CNC Lathe Machine

1. **Non-fumigation packaging**, we use seaworthy plywood.
2. **Steel base plate**, it is stronger 3-5 times than normal plywood base plate.
3. **Water-proof and damp proof**, water resistant film wrapped all the machine.
4. **Fully sheathed case**, prevention of collision and keep the goods intact.

FAQ

How long is your warranty period of this TCK40 Multifunctional Drilling and Milling Lathe Machine High-Accuracy Pressure Vessel for Retail and Manufacturing Industries?

A: our warranty period is one year, and we will maintain the product free of charge during the warranty period. Use our machines to supply standard parts and accessories during shipment. In the correct operation, if there are any damaged parts or accessories, we will replace them immediately by airmail or express mail.

What kind of packing do you have?

Answer: we use a plywood cases, to ensure the packing quality durable, fully protect the safety of the goods in the cabinet, appearance is bright and clean, smooth and beautiful, durable, has low cost, big load, afraid of sun rain no moth, etc.

How long will your delivery date be?

A: our delivery date is one month. 30 days

Does the TCK40 Multifunctional Drilling and Milling Lathe Machine High-Accuracy Pressure Vessel for Retail and Manufacturing Industries can be customized?

A: of course, if our product can't meet your need, tell us the model and send us the drawing, recommend suitable products to you, we can also design and produce the machine meet your requirements.
